AGUINALDO TAKEN BY GEN. FUNSTON.

Captured in His Hiding-place Last Saturday—Is Now in Custody at Manila—Daring Expedition.

(BY THE NEW ASSOCIATED PRESS—P.M.)
MANILA, March 28.—(By Manila Cable.) Gen. Frederick Funston's daring project for the capture of Aguinaldo in his hiding-place in the province of Isabela, Luzon, has proved completely successful. Aguinaldo was captured there March 23.

The United States gunboat Vicksburg, Commander E. B. Barry, with Gen. Funston and Aguinaldo on board, arrived here this morning.

LONDON GETS TIDINGS.
(BY THE NEW ASSOCIATED PRESS—P.M.)
LONDON, March 28.—A dispatch from Manila says that several members of Aguinaldo's staff were captured with him and brought to Manila. The insurgent leader and his men were captured near Casiguran, near Baler, province of Luzon.

FUNSTON'S SMALL PARTY PRETENDED TO BE CAPTIVES

(BY DIRECT WIRE TO THE TIMES.)
MANILA, March 27.—[Exclusive Dispatch.] Gen. Funston, with the assistance of a number of Macabebes, has captured Aguinaldo in the country near Casiguran, nine miles from Baler, on the northeast coast of the Island of Luzon. The rebel leader and his entire staff are now in Manila. Gen. Funston employed a very clever ruse to reach Aguinaldo. His plan worked successfully, with the result that the head and front of the insurrection is now where he will do no more harm to American interests.

Recent dispatches from Manila told of the departure of Gen. Funston on what many believed was an almost hopeless expedition. The very audacity of Gen. Funston's plan, however, was such that those who knew him intimately had faith that he would accomplish his object. Some months ago letters were captured by Americans showing beyond peradventure, that the rebel leader was hiding in the northeastern part of the island. Gen. Funston immediately conceived a plan to capture him, which received Gen. MacArthur's approval.

Two weeks ago he started from Manila, with Surg-Maj. Harris, Capt. Newton of the Thirty-fourth Infantry, Lieut. Admire of the Twenty-second

Infantry, Lieut. Mitchell of the Fortieth Infantry, six veteran Americans and a number of native scouts, all of whom were selected for their bravery and extensive knowledge of the country.

THE PLAN.
Gen. Funston's plan was that after he and his party landed as near as possible to the place where Aguinaldo was thought to be in hiding, the native scouts were to pass themselves off as insurgents, who, having captured Gen. Funston and other Americans, were conveying them to Aguinaldo. When the supposed prisoners were brought by their alleged captors before Aguinaldo, they were to suddenly appear in their true character, seize the wily Filipino and make their way back to the coast, where the gunboat Vicksburg, which had conveyed the party, was to await their return.

It will readily be seen that the adventure was a desperate one, as treachery was always possible, and Gen. Funston had no absolute means of knowing how many men Aguinaldo had with him. It was possible that he would have enough to overwhelm the Americans and their native allies, but this did not deter them for an instant. They accepted the risk, with the result that Aguinaldo is now safe in the hands of the American military authorities in Manila.

The province of Isabela, where the capture of Aguinaldo occurred, is the least of Luzon, about 200 miles northeast of Manila, and about seventy-five miles north of Baler, on the eastern coast, which place was made memorable by the capture of Lieut. Gilmore and his party from the gunboat Yorktown in April, 1899. Isabela province is wild and mountainous, especially along the coast, where the high range known as the Grand Cordillera Oriente, extends for a few hundred miles or more from north to south, the highest point of the range being but a few miles from the shore.

Rugged trails, in some places being but a foot or two in width, lead across the mountains, frequently crossed by rushing streams, and where these overflow their banks the trails are waist deep in mud. It was this uninviting prospect that deterred the rebels from attempting to capture Gen. Funston's small band when it was there.

To deceive the enemy, it was arranged that Aguinaldo's representative, who had given the information to the Americans, should lead a party of native scouts, they to assume the character of insurgents still loyal to the rebel cause. They were to make it appear that they had captured Gen. Funston and other Americans, and were taking them into the camp of the insurgent chief to be delivered as prisoners of war.

Then was to come the daring part of the plan. The pretended prisoners were to throw aside their arms, and, assuming the character of captives, were to be taken to Aguinaldo, who was to be held in the hands of the Americans, and were to be taken to the coast, where the gunboat Vicksburg, which had conveyed the party, was to await their return.

TOO FOXY TO WIN.

Russia Can't Fool the Powers.

States Her Attitude as to Manchuria.

Home Troubles Believed to Prompt Her Acts.

Great Britain Makes Protest—Uncle Sam's Stir in Diplomacy.

(BY DIRECT WIRE TO THE TIMES.)
WASHINGTON, March 27.—[Exclusive Dispatch.] Russia is playing an extremely foxy game regarding Manchuria, but the officials of the State Department hardly believe that it will result in anything serious. Some days ago the United States handed the Russian government a written protest against the Manchurian convention with China, and at the same time made written inquiries regarding Russia's intentions toward that territory, making special inquiry whether Russia intended to hold Manchuria permanently.

Russia has replied to the State Department, but did not answer the inquiries. She replied verbally by saying she has no intention whatever of holding Manchuria longer than it will take to restore order in China, and as soon as order has been restored, will commence evacuating the territory. She absolutely disclaims any aggressive intention toward China, and declares that she merely seeks preservation of her own and other foreign interests in the territory over which she now exercises control.

The State Department does not regard Russia as being a very great disturbing factor in the Chinese situation, but it is believed that Russia is merely for the purpose of diverting attention from her home troubles. It is not believed that Russia would dare go to war with any power with her present troubles at home. If she can keep attention diverted from her home troubles by making noise outside she may avert a revolution.

IMPERIAL DECREE OUT AGAINST THE SIGNING.
VICEROY LIU KUAN YI THE SOURCE OF ADVICES.

Russia Put to it to Discover a Mode to Influence China to Grant Her Demands—Ministers of the Powers on Stomach's Death.

(BY THE NEW ASSOCIATED PRESS—A.M.)
LONDON, March 27.—[By Atlantic Cable.] The officials of the Japanese Embassy confirm the report that an imperial decree has been issued by the court at Peking, through Liu Kuan Yi, the Viceroy of Nanking, ordering that the Manchurian convention should not be signed March 26, the date fixed by Russia. An intimation of this decree has been telegraphed to the various governments concerned.

RUSSIAN POINT OF VIEW.
(BY THE NEW ASSOCIATED PRESS—A.M.)
ST. PETERSBURG, March 27.—The correspondent of the Associated Press is informed on competent authority that the Russo-Chinese agreement probably will be signed shortly. However, the negotiations continue, and the result is not yet certain. While it is possible that the details will be slightly modified, the arrangements will be substantially as demanded according to the Russian point of view, an abatement of what are here regarded as moderate demands would be inconsistent with Russian interests, and would not sufficiently safeguard the frontier and railroads.

The draft of the agreement now being discussed does not mention and does not affect Mongolia or Turkestan. It concerns Manchuria exclusively. Mongolia or Turkestan have never been included in the formal draft, as the correspondent of the Associated Press is informed, but they will be designated for the protection of existing interests and rights, and not for the acquisition of new things. It is diplomatically admitted that Russia is seeking certain guarantees for future security, and it is positively certain that no powers have protested, even Japan refraining from this attempt to interfere between two other governments. However, the Japanese Minister discussed this and other phases of the Chinese difficulty with the Foreign Office. The statement of the Japanese Foreign Minister that Japan will necessarily demand compensation if the agreement is signed, has not made a decisive impression, for, as the authority of the correspondent of the Associated Press says, promises or threats and their performance are not quite the same thing.

Russia does not object to the principle of Count Von Buelow (the German Imperial Chancellor) that the agreement will not diminish substa-

tionally China's ability to pay any indemnity, since the arrangement does not affect the existing commercial rights of other nations in Manchuria. China will continue collecting customs duties in Manchuria.

BRITAIN PROTESTED.
WASHINGTON, March 27.—A dispatch was received here today from one of the Foreign Offices to its representative, stating that the British government had made a protest against China's negotiating a convention with Japan touching territorial or financial affairs until the present troubles in China are settled. The protest was made through Sir Ernest Satow, British Minister at Peking. It is understood to have been made within the last day or two.

The Russian agreement is not specifically referred to, but it is stated that the British action is clearly directed against that agreement.

UNCLE SAM MAKES STR.
(BY THE NEW ASSOCIATED PRESS—P.M.)
WASHINGTON, March 27.—The effect of the British protest is to place the United States, Great Britain and Japan in formal opposition to the signing of a convention with China with any power pending the settlement of the Chinese troubles. The course of Great Britain is the more significant from the fact that that government and Germany have a written alliance relating to Chinese affairs.

The concurrence of these protests probably explains why the Manchurian agreement has not been signed. There was no definite information received here at the State Department as to whether the agreement had been signed or rejected.

There was something of a stir in diplomatic quarters over the report coming from official sources that the United States was considering the advisability of addressing Russia directly on the subject. Heretofore the American objections to the Manchurian agreement have been addressed to China. Copies were furnished to Russian authorities, though the protest in form had been to China and not to Russia. Several of the foreign representatives advised their governments that this step was contemplated by the United States, but there is no official information available as to how far the consideration of the move has proceeded.

WU FOR INTERVENTION.
MINISTER FEARS PARTITION.
(BY THE NEW ASSOCIATED PRESS—A.M.)
NEW YORK, March 27.—The Tribune says Wu Ting Fang, the Chinese Minister, who was in this city last night, seemed to be much concerned about the seizure of Manchuria by Russia and inclined to believe that if other powers allowed China to be forced to part with the province, the result would be the partition and dismemberment of China. His inquiries indicated that he was much concerned and thought an intervention at this time would be the most effective aid China could have. He said he had no information about the attitude of the powers toward China, other than has been given in the newspapers.

MURDER OF STONEHOUSE
NOT A POLITICAL FEATURE.
(BY THE NEW ASSOCIATED PRESS—A.M.)
PEKING, March 27.—[By Atlantic Cable.] The Chinese had not signed the Manchurian agreement last night when the time expired.

The Ministers of the powers do not consider that the murder of Rev. J. Stonehouse of the London Missionary Society, who was killed by Chinese brigands fourteen miles east of Tientsin recently, affects the Chinese situation politically. They are perfectly aware that the country around Shih-Nan is infested with robbers, who are violently hostile to foreigners, and would take such an opportunity as in the present case to kill one.

Mr. Rockhill, the special commissioner of the United States, says he does not consider it safe to travel alone in the country districts, and that guards cannot be supplied to the missionaries, consequently those going into the country take considerable risk. The district in which the murder was committed is policed by foreign troops. Therefore China is not officially responsible. The foreign troops practically gutted Shih-Nan of everything worth taking and the people there are indignant against all foreigners. The missionaries attribute the murder to the leniency of the powers toward China, which makes them seem to be afraid.

The ministers have many different views on the indemnity question, which may result in considerable delay in the negotiations on that subject.

JAPAN ABLE TO FIGHT.
STATEMENT BY PREMIER ITO.
(BY THE NEW ASSOCIATED PRESS—A.M.)
YOKOHAMA, March 27.—[By Atlantic Cable.] At a meeting of his parliamentary adherents today, the Premier, Marquis Ito, referring to foreign policy, said Japan had attained a position enabling her to protect her legitimate interests and to take whatever steps the exigencies of the moment required. It was impossible to deny that Japan feels the influence of the complications connected with her neighbor and she does not ignore the clouds on the horizon.

JAPAN WANTS PEACE.
(BY THE NEW ASSOCIATED PRESS—A.M.)
NEW YORK, March 27.—A special to the World from Washington says that Komoro Takahira, the Japanese Minister, when asked if the options attributed to Mr. Matsui, first secretary of the Japanese legation at London, correctly represented the attitude of Japan toward Russia, said:

"At this moment I know there have been exchanges of view between the governments concerned. I suppose some of them are still under consideration, and I have no doubt that every one is studying the matter with the hope of coming to a peaceful solution. Therefore, I am not in a position to say what action will be taken by the Japanese in case the Manchurian negotiation reaches its consummation, and I cannot be certain how long as I do not know in what shape it will be concluded. I must, however, say that the Japanese government has been acting throughout the whole negotiation with the hope of safeguarding the

REMOVAL OF OUR DEAD.

RUSSIAN TOUCHING COUNTRY.

PEKING, March 27.—(By Asiatic Cable.)

The bodies of the six American marines who were killed during the siege of the legation and buried in the Russian legation, were removed today for shipment to the United States.

In addition to the American troops in Peking, the Monarchist Commander F. M. Wise, sent a detachment of marines to be present at the disinterment.

The courtesy of the Russians deeply moved all the Americans. Two Russian companies participated in all the ceremonies. The Russians guarded the disinterred bodies all night and rendered all the Russian military honors to the dead.

Gen. Chaffee wrote to M. De Giers expression of his feelings and of the feelings of the officers and men of the entire command. M. De Giers, referring to the incident, said it was only natural. The Russians and Americans fought side by side during the siege, and were equally brave.

It is recalled that in the case of an American marine who had done duty beside a Russian soldier and who was buried without a coffin, the Russian, with tears streaming down his face, laid the body into the coffin and placed the earth as a rest for the head. Those who were present say it was a most affecting scene.

CHINA RAISING TROOPS.

LONDON, March 28.—(The Standard, wiring service.)

China is reported to be raising 50,000 new troops and to be preparing to march into the Yangtze valley, forcing the Russian troops to retreat.

Eight anti-Christian riots have been headed at Chang-sha in the province Hunan.

PROVINCIAL OFFICIALS DESERVE PUNISHMENT.

THE POWERS REPORTED TO BE IN FAVOR OF IT.

Prominent Chinese Would Be Surprised if International Displeasure Should Not Be Visited Upon These "Dangerous Persons."

PEKING, March 28.—(Exclusive Dispatch.)

Although the question of the punishment of the provincial officials implicated in the Boxer uprising has not been discussed recently by the foreign ministers, it is understood that all powers believe that these officials should be punished, notwithstanding Russia's protest.

Russia's protest is naturally strenuous on this point, as she is the protector of the Catholic missionaries. Japan and the United States appear to be agreed that, as a matter of principle, these officials should be punished, and that the protest of any one power should not be allowed to influence the majority.

The majority of foreigners here regard it as an important point that the Chinese provincial officials should be punished rigidly in proportion to their crimes. They believe the punishments should be meted out to all criminals, whether they be mandarins, nobles or ordinary citizens. It is probable that ten of the powers will act together on this point, and allow Russia to protest, if she desires.

Prominent Chinese would really be surprised if the punishment of these officials were not demanded and inflicted. They look upon the matter with calmness, believing the officials referred to are dangerous persons, so far as concerns reform, or Chinese who are desirous of bringing about reforms.

DR. MORRISON'S CABLE.

YANG TSE VALLEY'S STABILITY.

LONDON, March 28.—(By Asiatic Cable.)

Dr. Morrison, writing to the Times from Peking yesterday, says: "Reports that the Chinese court has definitely rejected the Manchurian convention are acquiring great consistency, and the extreme reticence of Li Hung Chang's yamen points in the same direction."

The Yang Tse Valley is again, as last summer, proving the center of the stability of China. The action of the Chinese court in rejecting the Manchurian convention is carrying the whole of the central and southern provinces with it. The movement against Russia and in favor of an appeal to the concert of powers is acquiring such strength and breadth that, whatever disposition may exist at Peking, the Chinese court may consider estranging Russia less evil than jeopardizing the throne and the empire.

A conflict is believed to be imminent between the French and Chinese troops at Hwailu. Li Hung Chang had ordered the Chinese general to withdraw from the province of Chi Li, and the general replied that he would not draw after he had swept the foreigners out. Thereupon Gen. Bailford, the French commander, left Peking today with permission to fight if his force should be attacked. This permission is almost equivalent to a challenge.

The French have 1500 men at Hwailu and the Chinese are reported to number 50,000. Victory would give the French command of the main road to the province of Shan Si by a better route than the one now being used.

The French intend to construct a railway to Kalgan as the first step in a trans-Mongolian line to Lake Baikal.

A remarkable testimony was borne to the excellence of American municipal government in Peking today, when many thousands of Chinese assembled in the American quarter and presented a petition begging the Americans to remain in Peking.

RECORD FOR THE STEERAGE.

NEW YORK, March 27.—The North German Lloyd steamer "Kaiserin Augusta," which arrived today from Bremen, brought 1944 steerage passengers. The largest number of steerage passengers previously carried by one ship was 1814, brought on the steamship "Barbarossa" of the same line, eleven days ago. These two great shipments of people show an unusually heavy German immigration for March.

WASHINGTON, March 27.—The Marine Hospital service has advised from Vera Cruz (Mex.) showing that yellow fever is reported on the isthmus of Tehuantepec, two cases being reported in the city of Vera Cruz.

FIGHTING IN CAPE COLONY.

Two Engagements of Little Effect.

Dispersal of Fourie at Thabanchu.

Gen. Bruce Hamilton Has a Brush—Kitchener Reports Losses.

CAPE TOWN, March 27.—(By South African Cable.)

Indecisive encounters at widely-separated points are reported today. Fighting took place yesterday at Tarkastad and Henington, both in Cape Colony. The casualties were few.

A commando numbering 200, under Commandant Fourie, was dispersed at Thabanchu.

According to reports received here, the enemy north from a combined movement of the Boers and the Kaffirs.

The Boers left twenty-two dead and thirty wounded. As their pursuit was rapid, many more Boer casualties are likely.

GREAT SPREAD AT SAN JOSE.

Coast Route Opening to
Be Celebrated.

Banquet Arranged for
Monday Evening.

Host of Ore Stealers—Gov-
ernor and Bills—Dam-
Site Trouble.

(BY DIRECT WIRE TO THE TIMES.)
SAN JOSE, March 27.—[Exclusive
Dispatch.] The banquet at the Ven-
ue Hotel next Monday evening to
celebrate the opening of the Coast
Route will be the most impor-
tant event of the year. From the
number of distinguished guests who
have already signified their intention
of being present, it is probable that
the function given in the State
capital will show such a list of
notable Californians as those who
will grace the tables on this occasion.
All the leading towns and cities in
the State will be represented by some
official of importance.

Among the number of important per-
sons who have already accepted the
invitation are: Southern Pacific officials,
J. C. Huntington, first vice-president;
J. C. Stabbs, third vice-president; J.
K. Stabbs, fourth vice-president;
J. O. McCormick, passenger traffic
manager; William Hood, chief engi-
neer; J. A. Fillmore, manager of the
Pacific system.
From San Francisco there will be
present: Mayor James D. Phelan, D.
Moody, Irving M. Scott, F. W.
Johnson, H. H. Vail of Sanborn, Vail
& Co., H. Sherwood of the Perry
Road Company, Reuben B. Hale of
the San Francisco Chamber of
Commerce, Gen. N. P. Chipman, J.
A. Moreland and Senator George C.
Felton.

The Mayors of Los Angeles and San
Luis Obispo and Senator Bard will
be among the guests. O. A. Hale will
preside at the banquet, and Judge
J. R. Lewis will act as toast-
master. The Vendome will be ablaze
with light and color.

STEALING OF ORE.

ARRESTS AT SAN ANDREAS.
(BY DIRECT WIRE TO THE TIMES.)
SAN ANDREAS, March 27.—[Exclu-
sive Dispatch.] A systematic stealing
of ore at the Gwin mine has been un-
earthed, and both conspirators are now
under arrest. J. H. Rule, one of the
men, had been a trusted employee of
the mine for four years, and lately
received an increase in wages as a
reward of merit from the company. He
is a man of family, and told Dist.
Atty. McSorley the whole story, how
Warner had made known the profits of
a plan to carry ore from the lower
levels of the mine, ready for shipment to
San Francisco the following morning. Some
of the ore taken by them assayed
8000 a ton.

STRIKE OF GRADERS.

TROUBLE ALONG THE BORDER.
(BY DIRECT WIRE TO THE TIMES.)
BISPER, March 27.—[Exclusive Dis-
patch.] Hardly a hard day's work
has been done for the cut since the
eighty-mile railroad from this point to
Rancho, Sonora, is at work today.
The men, with their teams, have quit,
and are working for the cut wages
lately established by the contractors.
The men have gathered in Fronteras
and other little settlements along the
border, and are threatening to
defy the contractors and affirming
that no new men shall be brought in to
do their place.

Dist. Atty. Chamberlain, one of the
official employees of the contractors,
was held up by one of the striking la-
borers, who demanded his money at
the point of a pistol. Chamberlain pro-
duced nearly \$100. The Mexican then
reluctantly shot him in the hand,
though not fatally. The Mexican has
been arrested and confined in jail un-
der heavy guard, for fear of violence
from the Americans employed on the
road.

ESPEE RATE ON BARLEY.

TO CONTINUE THIRTY DAYS.
(BY THE NEW ASSOCIATED PRESS-P.M.)
SAN FRANCISCO, March 27.—The
Southern Pacific announces that the
rate of 50 cents per 100 pounds on bar-
ley from California terminals and
is a truck, ready for shipment to
San Francisco the following morning. Some
of the ore taken by them assayed
8000 a ton.

While living in Southern
California Mrs. Newhall de-
voted herself to writing fic-
tion, and published among
other novels, under the pen
name of Ada L. Halstead,
"Adopted," "The Death Trust,"
"Bride of Infelice," and "After
the Night Had Passed." In
April, 1898, she obtained in
Judge Daingerfield's court in
this city, a divorce.

BONE WAS BLASTED.

MINEBURNER OPHIR MINING COMPANY.
(BY THE NEW ASSOCIATED PRESS-P.M.)
SAN FRANCISCO, March 27.—Will-
iam H. Bone, a miner, today filed suit
against the Ophir Silver Mining Com-
pany to recover \$50,000 damages for
personal injuries received at Virginia
City, Nev., April 30, 1900.
Bone alleges that he was in the en-

play of the defendant company at the
time. He was at work in central tun-
nel, engaged in excavating earth, and
rock from a winze. Several blasts
failed to explode, and he protested
against further work until the blasts
were discharged. The foreman re-
fused the idea and Bone went to work.
Subsequently the blast was exploded,
the result being that Bone was per-
manently injured.

MILITIA DRILLING HARD.

DON'T WANT TO BE DRIPPED.
(BY DIRECT WIRE TO THE TIMES.)
STOCKTON, March 27.—[Exclusive
Dispatch.] Militiamen here are very
much wrought up over a well-founded
rumor that one of the local companies
of the National Guard will be dropped
from the Sixth Regiment, along with
another company at Fresno. There are
two companies in each of these cities,
and it is claimed that as there is to
be a decrease in the number of guard-
men, the first companies mustered out
will be one of them in each place.

Some five months ago Co. A and B
of this city made a very good show-
ing at inspection, and Col. Hay recom-
mended that one of them be dropped,
but the Adjutant-General was pre-
vailed upon to give them another
chance. For two or three weeks it has
been intimated that an inspection of
the companies would be made, and both
companies have been drilling two and
three times each week to present a
good appearance. When it was wis-
pered about that one of them would
be mustered out, the members realized
that the company making the best
showing would remain in the regiment,
and extra efforts are being made to
secure the privilege.

BILLS' FATE IN DOUBT.

GOVERNOR LEAVES FOR PRISCO.
(BY THE NEW ASSOCIATED PRESS-P.M.)
SACRAMENTO, March 27.—Gov.
Gage, who has been suffering from a
grippe for several days, left this after-
noon for San Francisco, without giving
any indication as to what he proposes
to do with the upward of 200 bills
passed by the late Legislature, which
await his signature.
If these bills or any of them are not
signed by the Governor of State by
12 o'clock tomorrow night, they will
have suffered the pocket veto. It is
believed that the Governor has
already signed a large number of these
bills, and in fact, all that he intends
to sign and place them in the hands
of his secretary, to be filed with the
Secretary of State at some hour ap-
pointed by the Governor, probably
some time tomorrow.

ARRESTED FOR BIGAMY.

W. W. FORBES TWICE WEDDED.
(BY THE NEW ASSOCIATED PRESS-P.M.)
MODESTO, March 27.—W. W.
Forbes was arrested at Big Oak Flat,
Tulare county, this morning on the
charge of bigamy. In April, 1900,
Forbes married Miss Edith Bailey of
Oakdale at San Jose.
Forbes, who was a recent arrival
from the East, represented himself as
a single man. It is now claimed that
he had at that time a wife living in
Ottawa, Kan., to whom he was married
in 1892, and from whom he had never
been divorced. Forbes claimed after
his arrest that he had been divorced
from his wife in Canada, but this
statement is denied in letters from her
and the officiating minister.
Forbes will be given a preliminary
examination at Groveland next Fri-
day.

DAM-SITE SUIT.

YUBA COUNTY LAND NEEDED.
(BY THE NEW ASSOCIATED PRESS-P.M.)
SACRAMENTO, March 27.—United
States Dist. Atty. Woodworth has filed
a suit in the Federal court to compel
the Yuba County Board of Supervisors
to sell certain land needed for the
dam site.

DEATH OF MRS. NEWHALL.

Well-Known Authoress of
Los Angeles County
Passes Away.

(BY DIRECT WIRE TO THE TIMES.)
SAN FRANCISCO, March 27.—[Exclu-
sive Dispatch.] Mrs. Laura Eugenia
Newhall, an artist and authoress of some
local note, died at her late
home, No. 934 Sutter street, at
2 o'clock this afternoon. Dr.
Laidlaw, who occupies the ad-
joining flat, heard her moans,
and on entering the rooms
found her suffering intense
pain and near the stage of
collapse. His wife brought
hot drinks, and he adminis-
tered strychnine hypodermically,
and then summoned the
Receiving Hospital ambulance,
but she was dead before it
reached the house.

The body was taken to the
Morgue, and an examination
might be made into the cause
of death, though it was
thought by Dr. Laidlaw that
alcoholism brought on the
end. It was learned by the Cor-
oner's deputies that she was
addicted to the use of liquor
and had been drinking heavily
since Saturday. It is under-
stood that her mother, Mrs.
Terry, lives in Healdsburg,
and that she has no relatives
in this city.

HER WORKS.

(NEW ASSOCIATED PRESS-P.M.)
SAN FRANCISCO, March 27.—Mrs. Laura
Eugenia Newhall was formerly the wife of
Joshua O. Newhall of Newhall, Los Angeles
County.

FIRE IN THE DEPTHS.

Confagration in a Republic, Mich.
Mine Defies All Efforts to Extinguish
it—Men Safe.
(BY THE NEW ASSOCIATED PRESS-P.M.)
REPUBLIC (Mich.), March 27.—Fire
started in No. 1 shaft of the Republic
mine last night, and resisted all efforts
to extinguish it. Today the flames were
raging through the shaft and no esti-
mate of the loss can be made at this
time. The mine has been closed, throw-
ing 500 men out of employment. All
the miners escaped.
MILWAUKEE (Wisc.), March 27.—A
special to the Sentinel from Republic,
Mich., says the fire is raging uncon-
trollably and has been burning for
three or four days. The fire is in the
mine shaft, and is making headway
under ground and is making headway
to the surface. There is no ship shaft
and 500 men at the mine who are
off until the fire is out and the shaft
way rebuilt.

a suit in the United States Circuit
Court for the condemnation of certain
lands in Yuba county, to be used as
the site of impounding barriers for
the collection of debris from hydraulic
mining operations provided for by the
Debris Commission Act, passed seven
years ago.
At that time \$250,000 was appropri-
ated by the Federal government, and a like
amount by the State for the construc-
tion of the dams. On the statement
of government engineers that \$300,000
would be required before any work
could be done, an additional State ap-
propriation of \$100,000 was made by the
Legislature at the session just closed.
This was to be met by a similar ap-
propriation by the Federal government.
One of the terms is that the dams,
sites, and settling reservoirs, shall be
named in the name of the United States gov-
ernment, and the suit was brought to
meet this condition.

SNOW IN SAN JOAQUIN.

FRENCH CAMP SURPRISED.
(BY DIRECT WIRE TO THE TIMES.)
STOCKTON, March 27.—[Exclusive
Dispatch.] For a few minutes this
afternoon, snow fell in the vicinity of
French Camp, about seven miles south
of Stockton, much to the surprise of
the residents of that town and the
farmers in that vicinity.

The first intimation here that it had
snowed in San Joaquin county was
when the train from the South arrived
here at 5:40 o'clock on its way to Sacra-
mento. It came through the storm
and a majority of the passengers wit-
nessed a sight they had not seen for
years. The tops of the coaches and
platforms were covered, and the re-
ports from the district where snow
fell are to the effect that big flakes
came down in large quantities, but the
snow lasted only about a quarter of an
hour along the railroad track.

It was quite cold in Stockton all day,
and two light showers passed over the
city. It also rained at French Camp
and in the southern part of the county.
So snow fell in Stockton, nor was any
reported as having been received at
any other point in this vicinity.

BRIEF COAST DISPATCHES.

Disagreement on Trial Trial.
FRESNO, March 27.—The jury im-
paneled to try ex-City Clerk Shinklin
for embezzlement was unable to
agree, and was discharged. The ob-
ject of the trial was to serve as an
example to the public. It stood eight
for conviction to four for acquittal. This
was the third trial of the case.

Political Prisoners Examined by Police—Students in the Army.

(BY THE NEW ASSOCIATED PRESS-P.M.)
ST. PETERSBURG, Tuesday, March
26.—[By Atlantic Cable.] It is reli-
ably reported that at a ministerial com-
mittee meeting held in the presence of
Grand Duke Vladimir, commander of
the St. Petersburg garrison, the pro-
posal to place the capital under martial
law, should the indications presage
further difficulties, was heatedly de-
bated.
M. de Witte, the Finance Minister,
was energetically opposed to the es-
tablishment of martial law, owing to
financial reasons, not to mention the
disastrous effect which it would have
upon industry, commerce and the coun-
try's standing with foreign capitalists.
The committee accordingly sanctioned
the issue of a circular which has been
issued by the Minister of the Interior.
A ministerial conference has been
called for Monday, to discuss the
question of martial law.

Naval Prisoners Transferred.

VALLEJO, March 27.—Nineteen prisoners
from the naval prison at Mare Island,
who have long terms to serve, were
sent to San Quentin this morning. The
Mare Island prison is crowded, and
hereafter long-term prisoners will be
sent to the State's prisons.

SAN FRANCISCO, March 27.—It is
officially announced that Gov. Gage
has decided to appoint John C. Kirk-
patrick, manager of the Palace Hotel,
Harbor Commissioner, to succeed Maj.
J. P. Harney.

of the conducting of a gambling house
was declared to be a misdemeanor, in-
stead of a felony, and the principal
characters of the St. Louis roulette
tour Monte Carlo with fare, roulette
and poker as the attractions. That
the play is not confined to males may
be seen by the following special from
Anaconda:

"Jimmy Johnson of the Turf Ex-
change is several hundred dollars
richer today by reason of a visit made
to his place by Miss Katharine Kidder
and six other actresses of her com-
pany. The players had a roulette
wheel set up for them yesterday after-
noon in a private room, and gaily
bounced the tierce" until 6 p.m. At
first they won, the aggregate of their
winnings being \$500, but eventually
they lost and quit the game \$600 to the
house. The loss was not a heavy one,
who bore it uncomplainingly. At mid-
night last night, Mrs. Louis James
and another party from the company
returned to the game and played until
4 o'clock this morning, quitting
about even. It is said the company
had a similar experience in Butte."

A dozen females of the James-Kid-
der company appeared at one of the
largest houses here, determined to re-
coup the losses incurred at Anaconda,
but because of the large crowd en-
gaged around the seductive wheel they
were not permitted to enter. They
have, however, arranged for a private
audience before departing for the
East tomorrow, and threaten to
break the bank or "go broke" in the
attempt.

GRAVE SITUATION.
(BY DIRECT WIRE TO THE TIMES.)
ST. PETERSBURG, March 26.—[Via
Berlin, March 27. Exclusive Dis-
patch.] The distinguishing and
gravest feature of the present distur-
bances in Russia is evidence of organ-
ized combination for the first time
between students and working men
of an obstinately revolutionary charac-
ter. The government has driven the stu-
dents into the arms of the labor party.
Bogolepoff, the Minister of Public
Instruction, who was assassinated,
was the worst type of Russian Bu-
reaucrat. His administration was
marked by continual petty persecu-
tion of the students. A petition pre-
pared by eminent professors and certain
Senators invoking the personal inter-
vention of the Czar was another
proof of the panic prevailing in of-
ficial circles, but the presentation of
this petition was prevented by higher
officials.

Another striking feature of this out-
break is the refusal to serve of large
numbers of Dvorniks, or yardmen,
who act as a species of police reserve
to assist the regular police in re-
pressing disorders, thus manifesting sym-
pathy with the people. No doubt it is
expected here that the outbreak
will be quelled eventually, but it will
only do so at an incalculable cost of
life and suffering.

CLEVELAND LECTURES TO PRINCETON STUDENTS.

HISTORY OF VENEZUELA BOUNDARY
DISPUTE EXPLAINED.

Ex-President Tells of the Vagueness
of the Lines Between the Possessions
of Empire and Republic, and Details
Subsequent Negotiations.

(BY THE NEW ASSOCIATED PRESS-P.M.)
PRINCETON (N. J.), March 27.—Ex-
President Cleveland delivered the first
of two lectures on "The Venezuela
Boundary Dispute" before the students
and friends of Princeton University to-
night. As Cleveland rode to begin his
lecture he was greeted with three
cheers from the student body. He was
strongly applauded several times while
delivering the lecture.

Cleveland, at the outset, spoke of the
vagueness on the subject of boundary
lines in the establishment both of the
Venezuelan republic and of British
Guiana. He said that from the first
there was evident need of "extraneous
assistance" before bounds so loosely
drawn could be fixed. He then
referred to the initiation of the dis-
pute in 1841 between the Venezuelan
Minister of Great Britain and Lord
Aberdeen, chief Secretary of State for
Foreign Affairs.

The making of the Schomburg sur-
vey and its bearing upon the dispute
were fully explained.

The lecturer, quoting constantly from
documents, showed the repeated ap-
peals of Venezuela to Great Britain in
favor of settling the question by arbi-
tration, and the refusal of England to
declare that their constitution prevented
them from making grants of territory
except by a process, the result of arbi-
tration. Meanwhile England constantly
refused arbitration on the general sub-
ject, declaring that it feared the Ven-
ezuelan Constitution would still be used
as a pretext for disobedience to an
award.

Great Britain also objected to the ar-
bitration requested by Venezuela, fear-
ing that an award might be made in
favor of the Venezuelan claim, in
which case "an important territory,
which has for a long period been in-
habited and occupied by Her Majesty's
subjects and treated as part of the
colony of British Guiana, would be
severed from the Queen's domain."

On this Cleveland said: "England
alone had treated it as part of British
Guiana; her immense power had en-
abled her to do this, and her own
decrees seemed to promise greater ad-
vantage as against her weak adversary,
than arbitration could possibly assure."

The British government at one time
offered a plan of arbitration which did
not include the disputed territory,
but never consented to arbitration,
such as proposed by Venezuela, and
which would include the entire terri-
tory in dispute.

The lecture tonight, brought down
with much detail the narrative to Sep-
tember, 1895.

COAL REGIONS WANT PEACE.

Trade Interests Suffer by the Strikes.

Steel King Willing to Do All in His Power—Mitchell Calls Meetings.

BY THE NEW ASSOCIATED PRESS—P.M.
NEW YORK, March 27.—A dele-
gation composed of five men represent-
ing trade interests in the Pennsylvan-
ia anthracite coal regions, headed
by the Rev. Edward S. Phillips, acting
as chairman, held a conference
today with J. P. Morgan, president
of the United States Steel Corp., at
the conditions of unrest in the an-
thracite coal region at present were
set forth in the briefest possible form
by Father Phillips, who presented
a delegation to Morgan and to whom
Morgan expressed his interest in
their errand and his willingness to
make personal effort to prevent an
strike, though he declined to hold a
public conference with the labor lead-
ers.

The delegation who met Mr. Mor-
gan today comprised the Rev. E. S.
Phillips from Hazleton, Edward
Lambert, treasurer, and A. T. Mc-
master, secretary of the Hazleton
board of Trade, and J. H. Sereby,
president, and L. W. Marquardt,
chairman of the manufacturers' Com-
mittee of the Pittsville Board of
Trade.

Arrangements for this meeting were
made last week by the officials of
the various boards of trade of the
coal region of Pennsylvania, through
Rev. Father Phillips, as chairman.
Father Phillips made a brief presen-
tation, saying that the delegation was
merely trying to bring about an
understanding of the situation, and
that they were ready to act as an
intermediary body or to be used in
any way that would compromise any
difficulties existing.

Father Phillips asked Morgan if
he would meet John Mitchell, pre-
sident of the United Mine Workers
of America, who has been in New
York several days. He went on to
say in substance that his attitude
up to the present time has been to
prevent the prevention of a strike,
and that he was much interested in
the nation of the delegation, and
suggested that they could rely upon
him to do all within his power to
prevent any action that would par-
alyze business. He went on to say
that he was disinclined to hold a
public conference with the labor
leaders, and that he was disinclined
to do so in the belief that should a
public meeting between himself and
the labor leaders be held, it would
be a public confession of weakness
on the part of the business world.
In other words, as Morgan
remarked, should he "half of New
York would be upon his heels."

Morgan asked the delegation
what they expected to achieve through
their mission, and he assured the dele-
gation that he might communicate with
the boards of trade later.
"You may rest assured that I be-
lieve there will be no strike," remarked
Morgan.

Morgan shook hands with the mem-
bers of the delegation, and they de-
parted. Morgan, after the conference,
declined to make any statement rela-
tive thereto.

CLAIMING A MILLION.

Brooklyn Man Goes to England to Se- cure a Big Estate for American Heirs. An Old Will.

BY THE NEW ASSOCIATED PRESS—P.M.
NEW YORK, March 28.—Walter M.
Johnson of Brooklyn will sail for En-
gland today to claim, on behalf of a
dozen American heirs, the estate of
Thomas Holden, valued at \$1,000,000.
The discovery of the will of
Thomas Holden, who died in 1899, the
American claimants would be unable
to establish their right to the estate.
This will was lost to the Holden heirs
for years. Holden left no children and
two sets of relatives engaged in a bit-
ter fight over his property. Among
the effects of one of the American heirs,
who died a few years ago, the will was
found. Johnson will take with him
the old will. He will have power of at-
torney from the various American heirs.

Thomas Holden owned valuable real
estate in England, and upon his
death, the property went to his sis-
ter, Elizabeth, and her heirs. She
married Stephen Broadbent. They
had several children. One of the sons,
William Broadbent, married Jane
daughter of John and Jane Tennant.
This branch of the Broadbent family
came to the United States about
1850, settling in Baltimore. They ac-
quired a tract of land covering 250
acres. A large part of this property
subsequently was sold to the Gar-
rard family. The Broadbents prospered
and brothers and sisters of
William followed to this country.
There were so many among the
several heirs, that, in time, ac-
cording to the statement made by
Johnson, only today the heirs of Wil-
liam Broadbent retained an interest
in the Holden estate. The case was
placed in the hands of Baltimore
attorney, who received information
from England recently which resulted
in Johnson's plan to go there and
claim the estate.

If the American heirs are success-
ful, the property will be divided
among Walter M. Johnson, William
Broadbent, Daisy L. Stambaugh,
and Anna B. Stambaugh of this city;
Joseph G. Johnson, J. Mortimer John-
son, Ella V. McDonald, George D.
Johnson and Ferdinand Broadbent of
Baltimore; Philip G. Stambaugh of

English Athletes' Objections— Tennis Tourney Ends—Up- roar at Tanforan.

BY DIRECT WIRE TO THE TIMES.
BRISTOL, March 27.—(Exclusive
Dispatch.) That the Belmont
syndicate cup defender will be far su-
perior to the Columbia is not ques-
tioned for an instant by any of the old-
time sailors who have worked on all the
cup defenders that designer Nat has
turned out. One of the sailors makes
this point:

"The new yacht will carry more sail
than the Columbia. Her mast is not
at liberty to say, but you may de-
pend upon it that the Lawson boat
will not have much advantage in sail-
ing capacity or actual speed. A
ten-minute gain over the Columbia in
thirty minutes of sailing should be
easy."

"Compared with the Independence,
the fitting out of the Columbia to act
as a trial horse should give Capt.
Nat's yacht at least five minutes ad-
vantage, and there is no doubt that W.
Butler Duncan intends that she shall
have the most thorough trying-out
ever given a cup defender since the
days of the Vigilant, Colonia and Ju-
bilee. The Columbia is to be brought
here early next month."

SIR THOMAS LIPTON.
BY DIRECT WIRE TO THE TIMES.
DUNHARTON, March 27.—(Exclu-
sive Dispatch.) Sir Thomas Lipton,
in visiting Dennis's shipyard, was so
satisfied with the work on the Sham-
rock that he caused a letter to be
posted upon the building shed to the
workmen, as follows:

"To the Shamrock boys: I am very
much pleased, indeed, to see how well
forward the boat is, and to observe
how beautifully the work is being
done. May the Shamrock win. Good
luck to you all."

The Yachting World says a huge
is now being built
round under the body of the yacht, in-
closing the whole fin and reaching up
to the ordinary water line. It is cal-
culated that this box will have buoy-
ancy enough to float the boat about
six feet higher than her ordinary water
line and effectually cover up and con-
ceal the under body of the yacht until
she is well afloat.

OBJECTORS OF ENGLISHMEN.
JULY TWO EARLY FOR ATHLETICS.
BY THE NEW ASSOCIATED PRESS—P.M.
LONDON, March 27.—(By At-
tache Cable.) The challenge of Harvard
and Yale universities to Oxford and Cam-
bridge for a regular set of track games
suggests the usual Oxford-Cambridge
programme, including weight throwing
with two added events, which the
challengers propose shall be selected
from the 22-yard sprint, 88-yard
mile race, pole jump and weight throw-
ing.

The opinion of Oxford athletes
none of the four extra events is de-
sirable, partly because they are quite
unaccustomed to two events, while
they consider weight throwing unat-
tractive, and the 22-yard sprint dan-
gerous on a round course with corners.
The main difficulty, however, according
to officials of the Oxford University
Athletic Club, who were seen by a re-
presentative of the Associated Press,
is the July date and financial consid-
erations.

With regard to the date the Oxonians
point out that and experience has
taught Englishmen that while the
English July air refreshes American
athletes on their arrival, American
athletes, who were seen by a re-
presentative of the Associated Press,
is the July date and financial consid-
erations.

NEW IDEA A GOOD ONE.
BY THE NEW ASSOCIATED PRESS—P.M.
BOSTON, March 27.—Designer B. B.
Crowninshield, who has charge of the
plans and construction of the new cup
yacht Independence, was asked last
night to give his opinion of the in-
novation referred to in a dispatch from
Baltimore in connection with the spars
and rigging of the new yacht, Sir
Thomas Lipton's challenger.

The dispatch stated that the topmast
strut would be a single spar, without
a single spar, without hea-
tension, expressed considerable approval
of the plan. He said he believed
strongly in the single spar rigging.
The only objection, he said, might
be the fact that the Shamrock's top-
mast could not be used in a severe
wind came up. This feature, however,

SUMMARY OF THE DAY.

The largest building permit of the year was issued for a brick structure and factory on South Main street to cost \$20,000.

A protest has been made by Theodore Timms, landowner, against a change of location for the salmon license of Kill & Brose, No. 1514-1516 to 1544 San Fernando street.

E. V. Methever, convicted of the murder of Dorothy McKee in July, 1900, talked for the public yesterday, the first time since his arrest.

Miss Verona A. Hunt, in Judge Rank's court, has sued Sheriff Hammel and others for damages in \$5000.

John F. Keith took his \$5000 damage suit to trial in Judge Conroy's court yesterday against the Los Angeles Traction Company.

E. B. Calahan was arrested early yesterday morning on a charge of robbing a store about half way back on Main street.

Asad Shoor has once more disappeared from the peace of mind of the local rab colony. This time he is alleged to have threatened the life of one of his enemies.

Office to Be Retired.

The first meeting of the Police Commission this year has a board of Police Pension Fund Commissioners will take place next Monday. It is on the programme to retire from active service Officer A. P. Richardson, who has been in failing health for some time. Richardson has been in the department since April 2, 1895.

Rad Bridges.

J. M. Elliott, president of the Los Angeles Cemetery Association, has complained to the Council of the condition of two bridges on Evergreen avenue just north of First street. The flooring is in bad condition, and an examination by the City Engineer is asked.

Cleaning the Tunnel.

The Superintendent of Streets has made preparations to clean the Third-street tunnel, which has not heretofore been properly looked after. Men with brooms will be put at work in the big dark hole today. An improvement in the sanitary condition is expected.

Never since the ocean strand at

Long Beach drank up the life blood

of Dorothy McKee, the young girl

methever, the old man now under

conviction for murdering the young

girl, has spoken so freely of his

reference to himself or his awful

deed, save at his trial, yesterday.

Uniformly he has had nothing to say,

except to his attorneys, and to

the two intimate friends. He has been

depressed and downcast, he has been

of thought, but he has been

harbored within himself and guarded

behind a closed mouth.

Yesterday, to the surprise of the

TOBE WILSON WANTED

TO GO TO WORK.

TRAMP KING NEARLY PARALYZED

COURT WITH AMAZEMENT.

Calahan Stayed Too Long and Was

Charges of Burglary—Asad Shoor,

the Wild Arab, Again in Court.

An expression of conscious and holy

virtue illumined and glorified the

countenance of Tobe Wilson, king of

the tramps, as he rose up to address the

Police Justice yesterday. His heart

was filled with a grand resolution. He

said that if the Judge would let him

out of jail he would go to work and

be good everywhere. He said during his

years of meandering except to work.

Rather than go back to jail, he was

willing to hunt up this place, of which

he had heard dimly.

Justice Austin, who has been greet-

ing His Majesty at intervals during the

last fifteen years, was simply trans-

fixed with astonishment. All he could

say was, "I'll be about it." Tobe

was taken up to jail by a patrolman

and was sent out on the chain gang

with proper eclat. He was mentioned

in the paper as having been taken up

and sent out on the chain gang.

He was taken up to jail a couple of

days ago. In accordance with his in-

variable custom, Tobe got an up-

per on his head, and he was taken up

and sent out on the chain gang with

proper eclat. He was mentioned

THE CITY IN BRIEF.

AT THE THEATERS.

LOS ANGELES THEATERS.

NEWS AND BUSINESS.

False Alarm of Fire.

The fire department was given a needless run last night by some one who turned in a false alarm from box 224 at Avila and Hauchet streets.

Charged With Larceny.

Charles W. Hewitt was arrested last night by the detectives on a charge of petty larceny. He is said to have entered the room of Fritz Bauerle, No. 119 East Fifth street, and stolen a cheap watch. The watch was recovered.

Brahman Is Bankrupt.

J. B. Freet, a Brahman, has filed a petition in bankruptcy in the United States District Court. His liabilities are given as \$25,000, of which \$10,000 are debts to Los Angeles merchants. The assets scheduled consist of \$100 worth of personal property.

A Gala Night.

This evening the Pacific Gospel Union will observe "the convicts' anniversary." William M. Scott will lead the devotional service. There will be a mixed quartette, and singing by the children. The public is invited. Hall No. 223 East Second street.

Suing Irrigation District.

The suit of R. F. Thompson against the Perris Irrigation District is on trial in the United States District Court before Judge Welborn and a jury. In the complaint which Thompson filed, he alleges he purchased bonds of the defendant, which have never been paid. He is suing to recover \$646 and the costs of the case. Some evidence was given yesterday, and the case will doubtless be concluded today.

Spurred Her Calk.

An indignant housewife telephoned the Police Station yesterday asking that an officer be sent to her house on North Hill street, to arrest a tramp who had been begging in the neighborhood. In response to the questions of the officer who answered the phone she said she knew that the tramp was there for no good purpose, because she had given him a piece of cake and as soon as he was out of sight he would throw the cake in the street.

Partners Are Paupers.

A partnership petition in bankruptcy was yesterday filed in the United States District Court by H. C. Phelps, employee of the Southern Pacific Company, who leaves Saturday for Seattle to take the first steamer which leaves that port for the Cape Nome gold fields. They do not know when the steamer will sail, but it is their intention to reach Seattle early enough to purchase their supplies and perhaps join some party which will be made up of others. Phelps was in the Klondike country in 1931 and made some money there. Last year he went to Nome, but returned without success. Both men intend to go into business instead of trying their luck in the gold fields.

Lettory Joint Raided.

Two police officers found a place in Chinatown yesterday where all preparations had been made for a lottery drawing. One of the officers arrested himself on a pile of rice bags and waited for developments. A party of Chinese, some of whom were armed, were preparing to make the drawing, but the officer's presence was discovered and the party fled. The officers followed them through a door leading to another room. All of the paraphernalia was seized and taken to the Police Station.

Goes to Cape Nome.

J. H. Burnett and C. A. Phelps, employees of the Southern Pacific Company, will leave Saturday for Seattle to take the first steamer which leaves that port for the Cape Nome gold fields. They do not know when the steamer will sail, but it is their intention to reach Seattle early enough to purchase their supplies and perhaps join some party which will be made up of others. Burnett was in the Klondike country in 1931 and made some money there. Last year he went to Nome, but returned without success. Both men intend to go into business instead of trying their luck in the gold fields.

Passion Week.

Passion Week is to be commemorated with special musical services each evening at the First Congregational Church, corner of Sixth and Hill streets, beginning with Palm Sunday, March 21, to April 1. The music will be furnished by the church choir, under the direction of H. S. Williams; by the First Congregational Orchestra, under the direction of William H. Moore, and by a chorus. During the week addresses will be given by the junior pastor, Rev. William Horace Day, who will preach the morning sermon on Palm Sunday. The Easter sermon will be preached by the senior pastor, Dr. Warren F. Day. Good Friday will be especially observed.

Place for McKeeby.

George McKeeby will probably succeed Assistant United States District Attorney Finlayson, although those who are in position to know when the appointment will be officially announced say that the matter is not yet settled. They say, however, that McKeeby has the best chance of securing the place and that he will probably be appointed. He himself admits that there is any doubt about the matter, saying that he has assurances that he will get the position. McKeeby took a prominent part in the last campaign and spoke at Republican meetings in various parts of the country. He was a lieutenant in the California Heavy Artillery, saw active service near Manila and during the campaign he spoke on the Philippine question from personal experience.

BREVITIES.

Mrs. Jennie Keen, for a number of years head saleslady of the glove department at the Hamburger & Sons, desires to announce to her many friends that she now has charge of the glove department of the Goodenow Sheldon Company.

When moving, save all odds and ends of clothing and furniture for Good Samaritan department of Bethlehem Institutional Church for distribution among the needy. Tel. John 25 and wagon will call.
